

Dariusz Koziowski, MD, PhD

Department of Neurology, Faculty of Health Science, Medical University of Warsaw, Poland,
dkoziowski@wum.edu.pl

Dr Koziowski is an Associate Professor at the Department of Neurology, Medical University of Warsaw, Poland. He graduated from the Medical University of Warsaw. Dr Koziowski passed the neurological board exam in 2007. At the same time, he had been working toward his PhD thesis in the field of the role of ferritin in the pathogenesis of Parkinson's disease, which he defended at the Medical University of Warsaw, also in 2007. His research focuses on the field of the genetics of Parkinson's and related conditions, mechanisms of neurodegeneration, but also in the area of deep brain stimulation and botulinum toxin treatment. In 2015, Dr Koziowski received his postdoctoral degree. Currently Dr Koziowski is President of the Extrapiramidal Section of the Polish Neurological Society, and the Polish Society of Parkinson's Disease and Other Movement Disorders. He is a reviewer in journals from the Philadelphia list: *Current Genomics*, *Acta Neurobiologiae Experimentalis*, *Parkinsonism and Related Disorders*, *Polish Journal of Neurology and Neurosurgery*, *Plos One*. He also serves on the Editorial Board of *Parkinsonism and Related Disorders*.
